**Korindo Energy an Authorised partner for Brunvoll Mar-EI**  
*Brunvoll - Hybrid propulsion systems for optimum energy efficiency of the vessels.*

Korindo Energy (Singapore) Pte. Ltd. is appointed as an authorised partner for Brunvoll Mar-EI. We are now able to offer compact and light weight hybrid propulsion solution, taking full responsibility of the system integration. This will help Korindo Energy in a position to bring a new value-added opportunity in the optimised hybrid propulsion system.

“We are very excited to work with Brunvoll,” said Mr Ishak Kadir, Managing Director of Korindo Energy. “Teaming up with Brunvoll is an exciting development for our company to support our customers on hybrid or full electrification of marine vessels as we move towards a decarbonisation in the maritime industry.

Brunvoll is a global and well recognised brand in the maritime industry, where they have established strong market positions in their key market segments. Specialise in compact and light weight hybrid solutions, with the following scope of supply:

- Control systems for propulsion and manoeuvring
- Generator / El. motors for propulsion
- Battery package
- Frequency drives
- Converters DCDC DCAC
- Brunvoll Triton-EMS energy management system
- Battery system with BMS
- Transformers
- Charging system

Compactness and light weight are core elements in Brunvoll’s electric and hybrid system supplies. Brunvoll’s special configuration of the hybrid system is essential in achieving the operational and environmental performance of the vessel.
